

## PREFACE

The Contra Costa Water District Code of Regulations, originally published by Book Publishing Company in 1990, has been kept current by regular supplementation. During original codification, the resolutions were compiled, edited and indexed by the editorial staff of Book Publishing Company under the direction of William J. Woska, Assistant General Manager. In 2004, the Code was republished and kept current by CCWD.

The Code is organized by subject matter under an expandable three-factor decimal numbering system, which is designed to facilitate supplementation without disturbing the numbering of existing provisions. Each section number designates, in sequence, the numbers of the title, chapter, and section. Thus, Section 2.12.040 is Section .040, located in Chapter 2.12 of Title 2. In most instances, sections are numbered by tens (.010, .020, .030, etc.), leaving nine vacant positions between original sections to accommodate future provisions. Similarly, chapters and titles are numbered to provide for internal expansion.

In parentheses following each section is a legislative history identifying the specific sources for the provisions of that section. This legislative history is complemented by a resolution disposition table, following the text of the Code, listing by number all resolutions, their subjects, and where they appear in the codification.

A subject-matter index, with complete cross-referencing, locates specific Code provisions by individual section numbers.

**This supplement brings the Code up to date through  
Resolution 09-27, approved December 16, 2009**
