

Los Vaqueros Expansion Construction Courtesy Notice

8/16/2011

Construction Closures on South Side of Los Vaqueros Watershed

The Contra Costa Water District is enlarging the Los Vaqueros Reservoir by 60 percent to hold 160,000 acre-feet of water. This will ensure water quality and supply reliability for the 500,000 people served by the reservoir. The project includes moving the Los Vaqueros Marina and other recreational facilities to higher ground. To ensure public safety, the entire north side of the watershed is closed and closures on the south side are necessary. **(Map on back.)**

√ **Closure of Some South Watershed Facilities:**

Facilities located north of the Los Vaqueros Marina have been fenced off and will be closed to the public as of August 17, 2011. This includes trails, shoreline, piers and parking areas located north of the Marina. The Marina and facilities south of the Marina will remain open to the public for fishing access until further notice.

√ **More Extensive Closures Planned for Fall 2011:**

Most of the recreational facilities in the South Watershed, including the Marina and much of the shoreline, are expected to close for several months starting as early as October 2011. More information will be provided as this closure nears.

During these closures, the Miwok Trail that connects Round Valley Regional Park to Morgan Territory Regional Preserve will remain open. The District regrets any inconvenience these closures may cause and appreciates your cooperation with its efforts to ensure public safety.
