

Keep Your Commitment to Water Conservation

As spring approaches, the urge to resume old watering habits may be tough to resist. However, the drought persists. While a few winter storm systems provided temporary relief, it hardly accounted for a drop in the bucket of what was necessary. Since April 2014, you and your neighbors have done a great job saving water. Every gallon you save is a gallon we are able to keep in Los Vaqueros Reservoir to use when it is needed most.

We need the same enthusiasm for water conservation this year to maintain a reliable supply of high-quality water. Now

is a good time to review your outdoor water use for potential savings. If you have thought about replacing your front lawn with a water-wise landscape, Contra Costa Water District is here to help. We will rebate \$1 per square foot of converted lawn, up to \$1,000. Additionally, we will provide a \$150 rebate for a two-hour professional landscape design consultation. To be eligible, properties must be pre-approved by CCWD before work begins. Call **925-688-8320** for program details or visit our website at **www.ccwater.com/consERVE**.

The Bill Payment Center Has Relocated

If you pay your bill in person, you'll notice some changes at our Concord headquarters. The building you are used to visiting to pay your bill is closed while it undergoes seismic upgrades. The new location to pay your bill is in the back of our parking lot. Please follow the signs and use caution during construction. During this time, you may also pay your bill by mail or online at www.ccwater.com/customer-service/billpay.asp.
