Subject: Potential Impacts of Bay-Delta Conservation Plan on Central Valley Project
Contractors That are Not BDCP Beneficiaries

Dear Director Murillo:

The undersigned representing Central Valley Project (CVP) contractors are sending you this letter to request a joint meeting to discuss the status of the Bay Delta Conservation Plan (BDCP) and to begin discussions of how CVP operations with BDCP in place could result in redirected water supply and cost impacts on CVP districts that don't directly benefit from BDCP.

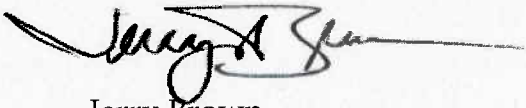

As you may know, your predecessor, Don Glaser, previously met with several individual agencies and stated that his new role for the next six to twelve months would be serving as Special Assistant to the Commissioner on BDCP. We have appreciated Mr. Glaser's attention to our individual agency concerns on BDCP; however, we request that going forward, where there are issues of mutual concern to our broader group, we meet as a CVP group, either with Mr. Glaser or any other Reclamation officer assigned to discuss BDCP. Mr. Glaser did state in our prior individual meetings that he intended to have a general information meeting with each of us in February. Instead, we are asking that these meetings be consolidated to a group meeting since we anticipate many of our issues and concerns will be similar. We anticipate there may still be individual agency concerns which may require individual

meetings, but we believe the broader issues affecting many agencies can best be dealt with collectively.

We appreciate Reclamation considering our request to conduct a joint meeting with us to discuss our common concerns. We are requesting that under your leadership a meeting be scheduled with us that could also result in an ongoing forum for our issues.

Sincerely,

Jerry Brown
General Manager
Contra Costa Water District

Alexander R. Coate
General Manager
East Bay Municipal Utility District

Ron Jacobsma
General Manager
Friant Water Users Authority

Thaddeus Bettner, PE
General Manager
