

Los Vaqueros Slide Repairs Underway

Expect minor delays on Los Vaqueros Road

Contra Costa Water District is in the process of repairing damage from last winter's storms. This work must be completed to prevent additional erosion and disruptions to our facilities.

Our contractor is now installing a retaining wall approximately 2,000 feet before the Marina facility to stabilize a section of Los Vaqueros Road. This work will occur from 8 a.m. to 5 p.m. Monday through Friday. Work is expected through the end of January.

Motorists should expect delays of up to 30 minutes during work hours. Please drive cautiously through the work area. Vehicle access to the Marina will be maintained throughout the project, however, traffic control is in place for your safety and the safety of our crews. Please obey all traffic signs and warnings.

We appreciate your patience and cooperation while we complete this important work. If you have any questions about the project, please contact Oliver Symonds at osymonds@ccwater.com or 925-688-8010.

If you have an urgent issue related to the project, please contact Watershed staff or call 925-688-8374.
