Subject: Request for Statement of Qualifications - Professional Services for the 2019 Untreated Water Renewal and Replacement Study -- SOQs Due 4:00 p.m., Thursday, April 12, 2018

Ladies and Gentlemen:

The Contra Costa Water District (District) is seeking Statements of Qualifications (SOQs) from firms interested in providing professional services for the Untreated Water Renewal and Replacement Study Update to be completed by February 28, 2020.

The District will evaluate all SOQs and determine which firms will be invited to submit proposals. SOQs should be prepared considering the information in the following attachments:

- Attachment 1 Project Description and Schedule
- Attachment 2 Statement of Qualifications Format and Evaluation Criteria
- Attachment 3 District GIS Standards
- Attachment 4 District Standard Agreement for Professional Services
- Attachment 5 List of Firms Receiving This Request for Qualifications

Interested firms shall submit five (5) copies of the requested information by **4:00 p.m. on Thursday, April 12, 2018**, to:

Contra Costa Water District
Attention: Cristina Estrella

Via Courier Delivery:
2411 Bisso Lane
Concord, CA 94520

Via US Postal Service:
P.O. Box H2O
Concord, CA 94524

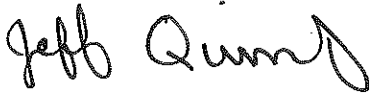

The District is an equal employment opportunity organization and encourages contracts with minority and women-owned business enterprises.

This Request for Qualifications (RFQ) does not commit the District to pay any costs incurred in the preparation and presentation of submittals or to select any interested firm who responds. This solicitation covers only the work described herein and does not commit the District to any work beyond that described.

Questions concerning the Untreated Water Renewal and Replacement Study Update should be directed to Cristina Estrella at (925) 688-8106 or cestrella@ccwater.com.

Request for Statement of Qualifications
2019 Untreated Water Renewal/Replacement Study Update - Professional Services

Project Description and Schedule

Untreated Water Renewal and Replacement Study– Professional Services Support

The Contra Costa Water District (District) requests Statements of Qualifications from firms interested in providing professional services for the Untreated Water Renewal and Replacement Study (UWRR Study).

PROJECT BACKGROUND

The purpose of this project is to ensure timely, cost effective, and environmentally sound improvements to the District’s untreated water system through periodic updates of UWRR Study. The District annually updates the Ten-Year Capital Improvement Program (CIP) that identifies capital improvements necessary to ensure efficient investments in the system are completed to meet the service needs of present and future customers.

The District last updated the Untreated Water Renewal/Replacement Study (UWRR) in 2013 as part of the 2013 Untreated Water Facilities Improvement Plan (UWFIP) which incorporated findings from the 2006 UWRR Study, projected long term funding needs for improvements, and evaluated alternatives for water conveyance. The 2013 UWFIP identified renewal and replacement needs for the Contra Costa Canal and associated pumping plants. Since 2013, new untreated (raw) water facilities have been constructed, such as Phase 2 of the Canal Replacement Project, the Rock Slough headworks/flood isolation structure improvements, and the Shortcut Pipeline Phase II improvements. Additionally, the District is in the process of completing an Asset Management Implementation Plan (AMIP) which provides a roadmap for improving and furthering asset management practices within the District system. As part of the UWRR Study, asset management practices will be furthered developed specific to the untreated water system assets. The product of the UWRR Study will provide a standardized methodology for project prioritization, as well as a prioritized list of capital improvements to be included in the CIP.

A brief overview of the District’s untreated water facilities and is provided in the next section.

PROJECT DESCRIPTION

The objective of the study is to identify and prioritize the renewal and replacement needs of the District’s untreated water system. The consultant will utilize existing renewal and replacement information, input from the District’s Operations and Maintenance staff, and assessments of facilities to identify and prioritize capital improvement projects into a phased implementation program. The project should provide the District with a list of planned rehabilitation projects allowing the District to identify required CIP funding over the next 10 years.

The project scope includes the following:

- Review existing renewal and replacement information.
- Develop guidelines to assess and evaluate the existing condition, remaining useful life, and criticality of the untreated water assets. Guidelines developed shall be specific for the untreated water system and shall consider the recommendations from the AMIP.
- Assessment and evaluation of the condition of the untreated water assets using the guidelines will be performed by the consultant using a combination of desktop analysis and visual inspection.
- Develop recommendations to renew, replace, or continue maintenance of untreated water facilities and the associated costs. Prioritize capital improvements for incorporation into the CIP using a risk based approach.
- Prepare the draft and final report to document study findings and recommendations.

The following is a brief overview of the District's major untreated water facilities which are shown on Figure 1 following the overview.

Intake Facilities

The District diverts water at four locations, Middle River, Old River, Rock Slough, and Mallard Slough each of which includes screened intakes and pumps. Each of the intakes include fish screen facilities which consist of the fish screens, an automatic screen cleaning system, and debris handling facilities. Middle River and Old River supply untreated water to the Canal and/or replenish Los Vaqueros Reservoir whereas Rock Slough and Mallard Slough supply untreated water only to the Canal.

The Middle River Intake was constructed in 2010 and includes a screened water intake and pump station located along the lower third of Victoria Canal (near Middle River). The Middle River intake has 5 pumps with a 250 cfs capacity (15,000 hp) which pumps untreated water into the 72-inch diameter Middle River Pipeline, and ultimately ties into the Old River Pipeline.

The Old River Intake is located just south of Highway 4 on Byron Tract. The facility was constructed in the mid-1990s as part of the original Los Vaqueros Project and consists of a screened water intake and pump station equipped with 5 pumps each with a 250 cfs capacity (10,500 hp) which pumps water into the 78-inch diameter Old River Pipeline.

The Rock Slough Intake consists of a fish screen at the headworks and four pumping plants located along the Canal between MP 3.95 and 7.04 to lift untreated water from Rock Slough to the Canal. The pumping plants have been rebuilt several times since their original construction in the 1940s and each have six pumps with a total capacity of 384 cfs.

The Mallard Slough Facilities were built in 1930 and consisted of an intake, pump station and pipeline. Originally, the pump station transported water directly to the Mallard Reservoir; however, the pump station was replaced in 2002 and a new 36-inch pipeline was installed to

transport water from Mallard Slough directly to the Canal. Currently, dredging of the slough is planned for 2021 to improve the operability of the pump station.

Contra Costa Canal and Shortcut Pipeline

The primary conveyance facility for the District's untreated water supply is the Contra Costa Canal (Canal). The Canal is 48 miles long with the major deliveries occurring within the first 26 miles. The portion of the Canal between Rock Slough and the Shortcut Pipeline near the Bollman Water Treatment Plant (WTP) in Concord (Mile Post 0.0 to 26.56) is termed the Main Canal and is currently being evaluated for major improvements as part of the Canal Modernization Project. The Canal Loop (mile post 26.56 to 47.64) is smaller and loops around the Diablo Valley (through the cities of Concord, Walnut Creek and Pleasant Hill) terminating at Martinez Reservoir. The Canal system includes untreated water laterals, 53 in-line siphons on the main Canal, 15 in-line siphons on the Canal Loop, 8 wasteways with slide gates, 8 active check structures with motor-operated gates on the main Canal, as well as a 1/4-mile long tunnel.

The District's Canal Replacement Project will ultimately install four miles of buried pipeline to replace the unlined (earthen) portion of the Contra Costa Canal, extending from Pumping Plant 1 to the Rock Slough headworks. The first two phases were completed in 2008 and 2014, which included installation of approximately 7,500 feet of buried pipeline to replace the unlined Canal from Pumping Plant 1 to Sellers Avenue in Oakley. Currently, phases 3 and 4 are under construction and will extend the buried pipeline eastward from Sellers Avenue to East Cypress Road.

The Shortcut Pipeline varies in diameter from 60-inch to 42-inch and conveys water from the Canal to the City of Martinez. This pipeline provides operation flexibility to serve Martinez as well as serves several industrial customers. The District will complete construction of improvements to this pipeline in summer 2018, which includes replacement of air valves, blowoffs, and isolation valves.

The Ygnacio Canal is located between MP 35.27 and MP 37.85 on the Loop Canal. This canal extends five miles through the City of Walnut Creek and is served by the Ygnacio Re-lift Pump Station, which pumps water into it from the Loop Canal.

Los Vaqueros Facilities

Construction of the Los Vaqueros Reservoir and associated facilities were completed in 1997, with an expansion project completed in 2012 which increased capacity to 160 thousand acre-feet. The Middle River Intake and Pump Station pump untreated water into the Middle River Pipeline, which extends approximately 2.4 miles across Victoria Island and beneath Old River, where it ties into the Old River Pipeline at the Old River Intake facility. The Old River Pipeline is a 6.8-mile pipeline which conveys water from Middle River and Old River intakes to the Transfer Facility.

From the terminus of the Old River Pipeline, untreated water either flows by gravity through the 96-inch diameter Los Vaqueros Pipeline to the Canal, or is pumped by the Transfer Pump Station

through the 72-inch Transfer Pipeline to the Los Vaqueros Reservoir. The Transfer Pump Station includes 4 pumps with a 200 cfs capacity (8,400 hp) and a 4-million gallon transfer reservoir. A hydroelectric generation facility (turbine and generator), constructed in 2012, and the Neroly Blending Facility is located where the Los Vaqueros Pipeline discharges into the Contra Costa Canal. This project does not include an evaluation of the dam or watershed related facilities.

Canal Roads, Fences and Gates

The District maintains an access road on one side of the Canal. The access road also serves the public as a recreational trail. Fences and gates are along the Canal for public safety and to protect it from vandalism and contamination. Additionally, there are approximately 380 bridges over the Canal, 141 of which are road crossings.

TENTATIVE PROJECT SCHEDULE FOR UNTREATED WATER RENEWAL AND REPLACEMENT STUDY UPDATE:

Transmit RFQs to Consultants	March 23, 2018
Receive SOQs from Consultants	April 12, 2018
Notify Consultants of Short-list and Transmit RFPs	April 19, 2018
Receive Proposals from Consultants	May 17, 2018
Conduct Interviews	Week of May 28, 2018
Notify Consultants of Final Selection	Week of June 4, 2018
Complete Contract Negotiations with Selected Firm(s)	June 25, 2018
Board Award of Contract	July 11, 2018
Begin UWRR Update	July 30, 2018
Project Completion	February 28, 2020

ATTACHMENT 2

Statement of Qualifications Format and Evaluation Criteria

Untreated Water Renewal and Replacement Update– Professional Services Support

Interested firms should prepare their SOQ in accordance with the information requested below. A selection committee will review the SOQ and determine which consultants will be requested to submit a proposal based on the evaluation criteria.

Letter of Transmittal (2 pages or less, 5 percent of total score)

Provide an overview of the firm(s) and identify the qualities that differentiate the proposed team and will make it successful.

Section 1 – Qualifications of the Firm(s) (3 pages or less, 25 percent of total score)

List the prime consultant, any proposed subconsultants, the discipline/expertise to be contributed by each firm, and the office location in which the required services will be performed. Describe each firm's related experience.

Section 2 – Qualifications of the Proposed Staff (3 pages or less, 35 percent of total score)

Identify key project staff, including the Project Manager, and describe their discipline/expertise, qualifications, and/or experience related to the proposed function they would perform.

Section 3 – Performance on Similar Projects (3 pages or less, 30 percent of total score)

Provide a minimum of three and up to five references for projects of similar nature with participation by members of the proposed team. Project information shall include the project name and location, consulting budget, start and end dates, roles of any proposed team members, and the name, address, and phone number of a knowledgeable owner/client representative. Evaluation will be based on quality of work, budget control, cooperativeness and responsiveness.

Section 4 - Appendices (no page limit, 5 percent of total score)

- A. Resumes of key personnel (5 percent of total score)
- B. Exceptions to the District's Standard Agreement for Professional Services (included as Attachment 4) (not scored)

ATTACHMENT 3

GIS Requirements

Untreated Water Renewal and Replacement Update– Professional Services Support

Compliance to the District’s GIS standards will facilitate data sharing, integration, and compatibility with the District’s GIS system. All GIS data shall be generated in Environmental Systems Research Institute (ESRI) ArcGIS software, unless directed otherwise by the District. All data layers developed by the Consultants and used on the project must be consistent with the District’s designated coordinate system, the “NAD 1983 State Plane California III FIPS 0403 Feet” projected coordinate system.

ATTACHMENT 4

Untreated Water Renewal and Replacement Update– Professional Services Support

NOTE: The successful consultant shall be prepared to work within the terms and conditions of this Agreement. Any exceptions to the Agreement shall be presented in the SOQ.

**CONTRA COSTA WATER DISTRICT
Standard Services Agreement**

THIS AGREEMENT for services is between Contra Costa Water District (“District”) and _____ (the "Consultant"). Consultant’s address is _____, telephone _____, and fax number _____. Consultant is a [] corporation, [] partnership, [] sole proprietor, having taxpayer’s identification number _____.

1. The Agreement. District and Consultant agree that Consultant shall provide _____ and shall perform these services for District on the terms and conditions herein set forth in connection with District’s project number _____ for _____. The specific scope of services, and any special performance conditions are defined in Attachment A - Scope of Work.

The following documents are attached hereto and are a part of this Agreement:

- Attachment A - Scope of Work
- Attachment B - Consultant’s Rates and Charges

This Agreement, including said attachments, constitutes the entire agreement between the parties and supersedes any prior proposals, representations, or understandings. This Agreement may be modified only by a written amendment signed by each party.

2. Time of Performance. Unless otherwise stated in Attachment A, Consultant is authorized to commence performance of this Agreement upon its execution by District. Consultant shall complete all services covered by this Agreement no later than _____, unless this date is extended by District in writing. At the District’s discretion, the District may extend the term of the Agreement. Should the District elect to extend this Agreement through _____, there shall be no change to the terms and conditions of this Agreement (other than to the time of performance).

3. Payment. Consultant shall at convenient intervals not more frequent than monthly submit itemized statements of services performed at the rates and charges in Attachment B. District shall pay for work satisfactorily performed within thirty (30) days after receipt of a

statement. Without the prior written approval of the District, the total amount payable by District for Consultant's services pursuant to this Agreement shall not exceed \$ _____ for the period from _____ to _____, and \$ _____ for the period from _____ to _____ upon extension of the Agreement.

4. Consultant an Independent Contractor. Consultant shall perform the consulting services under the Agreement as an independent contractor and not as an employee of District. Consultant shall be wholly responsible for the methods of performance. District shall have no right to supervise or control Consultant's performance, but shall have the right to observe it. Consultant shall work closely with District in performing the services.

5. Insurance.

A. Without in any way limiting Contractor's liability pursuant to the "Indemnification" section of this Agreement, Contractor must maintain in force, during the full term of the Agreement, insurance in the following amounts and coverage:

(1) Workers' Compensation, in not less than statutory amounts, with Employers' Liability Limits not less than \$1,000,000 each accident, injury, or illness; and

(2) Commercial General Liability Insurance with limits not less than \$1,000,000 each occurrence for Bodily Injury and Property Damage, including Contractual Liability, Personal Injury, Products and Completed Operations; and

(3) Commercial Automobile Liability Insurance with limits not less than \$1,000,000 each occurrence for Bodily Injury and Property Damage, including Owned, Non-Owned and Hired auto coverage, as applicable; and

(4) Professional liability insurance, applicable to Contractor's profession, with limits not less than \$1,000,000 each claim with respect to negligent acts, errors or omissions in connection with professional services to be provided under this Agreement.

B. Commercial General Liability and Commercial Automobile Liability Insurance policies must be endorsed to:

(1) Name as Additional Insureds, Contra Costa Water District and its respective Directors, Officers, Agents, and Employees.

(2) Provide that such policies are primary insurance to any other insurance available to the Additional Insureds, with respect to any claims arising out of this Agreement, and that insurance applies separately to each insured against whom claim is made or suit is brought.

C. Regarding Workers' Compensation, Contractor hereby agrees to waive its rights to subrogation which any insurer of Contractor may acquire from Contractor by virtue of the payment of any loss. Contractor agrees to obtain any endorsement that may be necessary to effect this waiver of subrogation. The Workers' Compensation policy shall be endorsed with a waiver of subrogation in favor of Contra Costa Water District for all work performed by the Contractor, its employees, agents and subcontractors.

D. All policies shall provide thirty days' advance written notice to Contra Costa Water District of reduction or nonrenewal of coverage or cancellation of coverage for any reason.

E. Should any of the required insurance be provided under a claims-made form, Contractor shall maintain such coverage continuously throughout the term of this Agreement and, without lapse, for a period of four years beyond the expiration of this Agreement, to the effect that, should occurrences during the contract term give rise to claims made after expiration of the Agreement, such claims shall be covered by such claims-made policies.

F. Before commencing any work under this Agreement, Contractor shall furnish to Contra Costa Water District certificates of insurance and additional insured policy endorsements with insurers with ratings comparable to A-, VIII or higher, that are authorized to do business in the State of California, and that are satisfactory to Contra Costa Water District, in form evidencing all coverage set forth above. Failure to maintain insurance shall constitute a material breach of this Agreement.

G. Approval of the insurance by District shall not relieve or decrease the liability of Contractor hereunder.

H. If a subcontractor will be used to complete any portion of this agreement, the Contractor shall ensure that the subcontractor obtains all necessary insurance, which shall name Contra Costa Water District, and its respective directors, officers, agents and employees and the Contractor as Additional Insureds.

6. Payment of Prevailing Wages. If any personnel of Consultant or a subcontractor of Consultant performs work under the Agreement for which a general prevailing wage has been determined by the Director of the Department of Industrial Relations, Consultant or subcontractor shall pay the prevailing wage for such work and shall comply with all applicable provisions of the California Labor Code Section relating to public works (Section 1720 et. seq.). Copies of such wage rates are on file at the District's principal office. For questions regarding this section, Consultant should visit www.dir.ca.gov/oprl/pwd/index.htm or call the Department of Industrial Relations at 1-415-703-4774.

The general prevailing wage rates for such work which establish minimum wages for this Agreement shall be posted by Consultant in a prominent place at the site where such work is performed. Consultant shall comply with all of the provisions of Section 1775 of the Labor Code

relative to penalties paid to the District regarding wage under- payments to workers employed under this Agreement, and Consultant shall comply with all of the provisions of Section 1776 of the Labor Code regarding payroll records requirements.

7. Abandonment by Consultant. In the event the consultant ceases performing services under this Agreement or otherwise abandons the project prior to completing all of the services described in this Agreement, Consultant shall, without delay, deliver to District all materials and records prepared or obtained in the performance of this Agreement, and shall be paid for the reasonable value of the services performed up to the time of cessation or abandonment, less a deduction for any damages or additional expenses which District incurs as a result of such cessation or abandonment, such as expenses associated with obtaining substitute services.

8. Records and Documents. Upon request, and at no additional charge, Consultant shall deliver to District all records, data, and reports prepared or obtained in the performance of the Agreement, which shall become and remain the property of District. This includes, but is not limited to, all materials and records of a finished nature, such as final plans, specifications, and maps prepared or obtained in the performance of this Agreement, and all materials of a preliminary nature, such as survey notes, sketches, preliminary plans, computations and other data prepared or obtained in the performance of this Agreement.

9. Right to Audit. Consultant shall permit District and its authorized representatives to examine, re-examine, make excerpts, transcribe and copy Consultant's books, documents, papers, materials, payrolls, records, accounts, computer disks, tapes and any and all data relevant to the Agreement at any reasonable time within three years after final payment under the Agreement. Consultant shall also permit District and its authorized representatives to audit and verify statements, invoices, or bills submitted by Consultant pursuant to the Agreement. Consultant shall provide such assistance as may be reasonably required in the course of such examination and audit.

10. Safety and Compliance with Laws and Regulations. In performing this Agreement, Consultant shall comply with all applicable laws, statutes, ordinances, rules and regulations whether federal, state or local in origin, and shall also comply with the CCWD Contractor/Consultant Safe Practices Handbook at all times when present on District property or at the site(s) of public works being installed, altered, repaired or removed for the District. The signature page of the CCWD Contractor/Consultant Safe Practices handbook shall be signed by the Consultant and submitted to the District. The Consultant shall provide copies of the Handbook to all Sub-Consultants/Sub-Contractors. The Handbook is available at <http://www.ccwater.com/files/safepacticeshandbook.pdf>.

11. Breach, Error, and Omission. In the event that Consultant fails to perform any of the services described in this Agreement or otherwise breaches this Agreement, District shall have the right to pursue all remedies provided by law or equity. Consultant shall exercise the same degree of care, skill, and diligence in the performance of the Agreement as would be exercised by a reasonable professional performing similar work under similar circumstances, and shall, at no cost to District, re-perform services which fail to satisfy this standard of care. In addition, any costs

incurred by the District (including but not limited to additional design and administrative costs, to the extent that such costs are recoverable under California law) and used to correct deficiencies caused by the Consultant's errors and omissions shall be borne solely by the Consultant. The District is relying upon the Consultant's qualifications concerning the services furnished under this agreement, and therefore the fact that the District has accepted or approved the Consultant's work shall in no way relieve the Consultant of these responsibilities.

12. Endorsement on Plans. All work of an engineering nature shall bear the stamp and signature of an engineer registered in the State of California.

13. Indemnification. If an action is filed in which it is claimed or alleged that any damages, injuries, or deaths arose out of, pertained to, or related to negligent acts, errors or omissions, recklessness, or willful misconduct of Consultant (or any person or organization for whom Consultant is legally liable), in the performance of the services for District, Consultant agrees, at its own expense, to defend District and its Directors, officers, employees, and agents; provided, however, that no settlement of a claim shall be made without the consent of District.

To the extent permitted by law, Consultant shall indemnify District and its Directors, officers, employees, and agents from any and against all claims, demands, costs, including reasonable attorney's fees, and liability for any damages, injuries, or deaths arising directly or indirectly from, or connected with, the services provided under this Agreement and due to, or claimed or alleged to be due to, negligence, recklessness, or willful misconduct of Consultant (or any person or organization for whom Consultant is legally liable). Consultant will reimburse District for any expenditures, including reasonable attorney's fees, District may make by reason of such matters and, if requested by District, will defend any such suits at the sole cost and expense of Consultant.

To the extent permitted by law, Consultant shall also indemnify the District and its Directors, officers, employees, and agents, against any and all claims, demands, costs and expenses at law or in equity including reasonable attorney's fees, and liability, suffered or incurred on account of, or that may at any time arise out of, or are in any way connected with, any breach by Consultant, or its employees, agents, subconsultants, or subcontractors, of the obligations, covenants, or any other provisions of this Agreement.

This Section shall survive any expiration or termination of this Agreement.

14. Confidentiality. Consultant shall treat any information it may come to have relating to the Agreement with confidence, revealing information to third parties only with prior written approval of District.

15. Assignment. The Agreement shall not be assignable or transferable in whole or in part by Consultant, whether voluntarily, by operation of law, or otherwise; provided, however, that Consultant with the prior written consent of District may subcontract that portion of the services for which Consultant does not have the facilities to perform so long as Consultant receives written approval from the District of the qualifications of the subcontractor or sub-consultant qualifications prior to execution of this Agreement. Any other purported assignment, transfer, or

subcontracting shall be void. Nothing in the Agreement shall be construed to give any right or benefit to anyone other than District and Consultant.

16. Governing Law. This Agreement shall be governed by and construed in accordance with the laws of the State of California.

17. Termination. District may terminate this Agreement at any time by thirty (30) days prior written notice to Consultant. Upon termination, District shall pay Consultant for all amounts due for services rendered up to the date of termination.

IN WITNESS THEREOF, the parties hereto have made and executed this Agreement as of the day and year written below.

CONTRA COSTA WATER DISTRICT

By: _____ Date: _____
Name: Jerry Brown
Title: General Manager

APPROVED AS TO FORM AND CONTENT:

District Legal Counsel

Revised 7/2014

Consulting Services Agreement
Between Contra Costa Water District (“District”) and
_____ (“Consultant”)

SCOPE OF WORK

Any work or services in addition to the work or services described in this Attachment shall be performed by Consultant according to the rates or charges listed in Attachment B. In the event that no rate or charge is listed for a particular type of extra work, Consultant shall not be entitled to compensation for extra work unless a written authorization or Amendment describing the work and payment terms has been executed by the District prior to the commencement of the extra work.

Consultant shall provide:

- (Briefly describe service or services)

District shall provide the following services and facilities:

- (Describe District obligations, if any)

EXAMPLE

Consultant shall provide financial and banking services, meeting facilitation, and planning study services that may include the following without limitation:

- Provide information on matters concerning urban development in East Contra Costa County, related to the impacts of potential needs for water services.
- Revise and update information in the Draft East County Water Services Status Report.
- Provide information concerning circulation, transmission, and distribution systems

District shall provide the following services and facilities:

- Timely access to land for field work;
- Reports, contracts, maps, and other data in District's possession necessary for completion of the services.

Consulting Services Agreement
Between Contra Costa Water District (“District”) and
_____ (“Consultant”)

CONSULTANT’S RATES AND CHARGES

Position Title (Additional description, if necessary) \$ _____ per hour

Position Title (Additional description, if necessary) \$ _____ per hour

Position Title (Additional description, if necessary) \$ _____ per hour

* If overtime is anticipated, it is assumed to be at the same hourly rate unless otherwise noted in this Attachment.
